

The Great *Aha!*

Daniel Martinez

Core vs. Chore

Steve Jobs at D5 Conference - May 30, 2007

Define The Terms

Core

- What comes naturally; for example what is your dominant hand with writing?
- Something you get excited and energized about; really gets you going!
- God wired and created you to love this!

Chore

- Something that takes more effort; you can do it...but it takes practice.
- Something you can work on, but you won't have as much passion.
- Often times necessary to have productivity and get things done...like studying and preparing for a presentation.

So what's the big picture???

So what's the big picture???

"That's a big picture"

▮▮ *Just as students differ in their goals, they differ in the time it will take to achieve their goals. Some student can attend school full-time; others can take no more than one course each semester. While some students may complete an undergraduate degree program in a few years, others envision themselves as students for a decade or more. Having a clear sense of your own goals is the first step towards realizing them.* ▮▮

New Beginnings A reference Guide for Adult Learners

Linda Simon

We must ask ourselves: *In my life what drives me? Is it my core or my chore.*

James 1:22-25 *"But be doers of the word, and not hearers only, deceiving yourselves. For if anyone is a hearer of the word and not a doer, he is like a man observing his natural face in a mirror; for he observes himself, goes away, and immediately forgets what kind of man he was. But he who looks into the perfect law of liberty and continues in it, and is not a forgetful hearer but a doer of the work, this one will be blessed in what he does."*

Thank you 😊
